

First homework is posted on GitHub, several of you have already started (or finished).

- ▶ Let me know how this goes. Harder? More onerous and tedious?
- ▶ Small edit on git submission: don't commit the full crime csv file.

First session tomorrow, Thursday, at 3-4:30 in room 224.

- ▶ If you are confused at all with the homework, or want to 'go further.'
- ▶ Any residual installation or GitHub questions.
- ▶ We can also plan for Friday at 3pm, if this option is needed.

TAs Assigned!

Several of the MSCAPP students will be assisting with the course!

- ▶ Victor Vilchis Tella
- ▶ Devin Munger
- ▶ Leith McIndewar

You may already know them. All super nice, and can help you out on Piazza or in person, at discussion times.
